- g. Furniture for other than full Joint Federal Travel Regulations overseas areas.
- (1) Government furniture may be procured for Government-controlled housing and for private rental housing occupied by eligible personnel. This would depend upon determining whether it is more advantageous for the Government to provide furniture instead of shipping personal furniture. Final determination is based on overall economy, equity, and personal preference of eligible military personnel and civilian employees.
- (2) Where Government furniture is provided, the shipment weight of personal furniture to and from the area is limited. An increase in an individual's administrative weight restriction may be authorized where there is a shortage of Government furniture.
- (3) Where Government furniture is not provided, procurement of furniture is restricted to the provisions of paragraph f, above. However, where not built-in, free standing wardrobes and kitchen cabinets will be provided in economy housing occupied by eligible personnel (see CTA 50-909).
- (4) All personnel entitled to the shipment of HHG are authorized furniture on a temporary loan basis while their HHG are in transit.
- h. Furniture for elective JFTR (USAREUR only).
- (1) For USAREUR, Soldiers may elect to ship any portion of their personallyowned furnishings, except household appliances, up to their full weight allowance at Government expense.
- (2) Where the elective JFTR policy is in force, the Government will supplement households with furnishings to compensate for furnishings that were not shipped. This support will be provided on a first-come-first-serve basis to the extent stock status permits.

- (3) In those collocated areas where a Service other than the Army is host, however, the furnishings policies of the host Service will prevail.
- (4) This policy (elective JFTR) will be subject to periodic review.
